FOR IMMEDIATE RELEASE

EBBTIDE CAMPIONE 200

WHITE BLUFF, TN (2002)--The Campione 200 Bow Rider is making waves as Ebbtide Power Boats classic sport boat. This fun machine is 19-feet 8-inches long with a beam of 8-feet 5.5-inches, with an exceptional usage of space. But, of course, spaciousness isn't the only attribute of the Campione 200.

Awarded *Powerboat Magazine's* "1999 Runabout of the Year," the Campione 200 features a spacious and sporty interior with driver and passenger swivel bucket seats and built-in cup holders, four-person rear bench and bow seating. For the water ski enthusiasts, there is a built-in ski tow and tow rope storage with drain. The 200 comes standard with in-floor ski and kneeboard storage, AM/FM stereo cassette, deluxe tilt steering, and swim platform.

Those who think a power boat should do more than merely look good will be excited to learn the Campione 200 reaches a top speed of 60 mph at 4900 rpm with a solid planning time of 4.3 seconds when it is equipped with the available 5 liter Volvo V-8 with fuel injection system. Buyers have the option of selecting from several engine sizes from either the MerCruiser or Volvo lines. This high-powered, trailer-ready boat for families on the go pleases drivers, passengers and skiers alike.

The classic silhouette of the Campione Series is complimented by bold stripes on the exterior and stainless steel bezeled instruments at the helm. As with all Ebbtide Boats, the Campione 200 is 100% hand laid.

The 2,600 pound sport boat comes standard with a 4.3 liter MerCruiser or Volvo Penta engine. It has a 36 gallon fuel capacity.
