**EBBTIDE INTRODUCES NEW LINE OF OUTBOARD POWERED  
DECK BOAT MODELS**

*First to be Unveiled is the 210 Campione Fun Cruiser*

**White Bluff, TN (Summer, 2002)** - Ebbtide is proud to unveil their new 2002 line of outboard powered deck boats. Ebbtide recently introduced the Campione 210 Fun Cruiser outboard at the 2002 Dealer Meeting in Nashville, TN. Now, following this outboard powered boat's debut, the Mystique 2400 Dual Console will also have outboard power available.

The New Campione 210 Fun Cruiser outboard offers the same style and elegance as all Ebbtide boats. With the added benefits of an outboard engine, you can run the Fun Cruiser in shallower water, improve your fuel efficiency, enjoy a day of fishing, and year-round use with this 2002 outboard model.

According to American Boat and Yacht Council (ABYC) standards, the 210 Fun Cruiser Outboard is a true self-bailing boat. The operator doesn't have to worry about bilge pumps or batteries when the 210 is left in the water as the cockpit sole drains overboard! The captain and his crew will experience ease and complete comfort with all aspects of this boat. Due to the benefit of hydraulic steering, maneuvering the boat is simple.

The interior of the boat is loaded with many amenities, including storage space for a fun day at sea. Entertaining guests? The 210 Fun Cruiser has a capacity of ten people or 1,450 lbs. and features a removable face CD player. In addition, the bow of the boat contains a built-in cooler; there is also a removable 25-quart cooler; rod storage; built-in wet/dry storage in cockpit; large bow platform with non-skid; two rear platforms with non-skid; two boarding ladders - bow and stern; ski storage in the cockpit sole; rear, side, and bow entrance to interior; comfortable seating front and rear; all seating bases are injection molded lightweight polymer panels eliminating rust, rot, or deterioration.

(Continued)

The boat's convenience, function, and space make this Fun Cruiser perfect for a day or weekend of fishing, skiing, wakeboarding, tubing, cruising, or family outings.

For those fishermen out there, this outboard model offers an optional fishing package. This package includes two casting chairs and two pedestals, four stainless steel bases (two bow and two stern), trolling motor plug and harness, a circular aerated livewell with pump, and extra battery tray. In fact, a standard feature on the boat is an in-dash LCD fish finder. Never before has fishing been so fun and so simple.

When using the trolling motor plug, the dual battery switch ensures that the battery will not be drained. This feature allows one battery to switch to the other without losing valuable energy.

The 210 Fun Cruiser outboard stretches 21 feet in length and has an 8'6" beam, which allows it to be trailored. Standard features include a 45 gallon fuel tank, color matched bimini top with boot, plexiglass windshield, deluxe AM/FM Stereo with CD Player, convenience center with sink, cooler, storage space, enclosed head and changing room with Port-A-Potty, deluxe adjustable captain's chair (slides and swivels), dash with a full compliment of gauges including an in-dash LCD fish finder, removable 25-quart cooler, and fishing rod storage.

As with all Ebbtide Boats, each one is 100% hand laid fiberglass for lighter and stronger construction. Because of the time and care we put into each and every boat, a limited number of boats are produced each year. For more information, please contact Ebbtide Boats at (615) 797-3193 or visit their web site at [www.ebbtideboats.com](http://www.ebbtideboats.com).
