EBBTIDE UNVEILS 2100 CUDDY CABIN

21-foot sport cuddy offers the best of both water-loving worlds!

WHITE BLUFF, TN (JULY, 2004) – Ebbtide's new **2100 Cuddy Cabin with Liner** offers water lovers the performance of a ski boat with the comfort of a cuddy cabin. The **2100 Cuddy Cabin** combines the classic sport boat look with the amenities of a fully enclosed, well-ventilated cabin. With more get-up-and-go than most any other boat in its class, the 20 foot, 10 inch dual purpose boat is ideal for a family day on a lake or a weekend overnight for a couple.

"The **210 Cuddy Cabin** is the perfect boat for families that love watersports (skiing, tubing, wakeboarding etc.) AND snoozing on the water," says Tommy Trabue, President. "We re-designed our award winning sport boat to include the luxuries of sleeping on board, without altering its power and performance"

The **2100 Cuddy Cabin** features a redesigned walk-thru transom, providing easy access to and from the water for skiers, wake boarders and swimmers. It has an integrated fiberglass cockpit liner allowing for easy interior scrub down and clean up after a long weekend of living on board. Optional snap-in cockpit carpet is available for the softer sole.

The spacious cabin of the **2100 Cuddy Cabin** will comfortably sleep two adults in its v-berth. The interior is designed with plenty of storage space and shelving, a porta-potty and carbon monoxide detector. The cockpit comes equipped with driver and passenger Avenir SAS bucket seats with a special shock-absorbing comfort suspension for a smooth ride, a flip-up bolster for easy docking, and a new instrument panel including a 5" tachometer. Also standard are CD player with two speakers and transom remote control, a removable 36-quart cooler, and plenty of storage and seating.

The classic silhouette is complimented by bold stripes on the exterior (or optional full hull stripe), available in Ebbtide's new color schemes. This 3,456 pounds (dry weight) sport cuddy comes with several Volvo and Merc engine options, from a Merc 4.3L MPI to a fuel injected Merc 350 MAG MPI, with a MSRP starting at \$32,800 (with standard equipment, 5.0 Merc, trailer not included). It has a 45-gallon fuel capacity, 8 foot, 6 inch beam and a twenty degree dead rise.

Ebbtide Powerboats set themselves apart from the competition with their superior award winning design & performance and 100% hand-laid construction. Their exclusive Dyna-Plane™ hull design and Dura-Core™ construction are the foundation of why Ebbtide Boats ride quieter, handle better and last longer.

As with all Ebbtide Boats, their 100% hand-laminated hulls and decks have a 10-year limited warranty and a limited lifetime stringer system and transom warranty. Because of the time and care that is put into each and every boat, a limited number of boats are produced each year, and each boat is one of a kind.

Ebbtide Corporation boasts 24 years of *Powerboat Magazine's* Awards for Product Excellence from 1980 to 2004. The Company will be the recipient of yet another Powerboat award for their 2200 Bow Rider with Liner at the 28th Annual Awards for Product Excellence Celebration on May 1, 2004 in Sarasota, FL.

All Ebbtide Boats are NMMA (National Marine Manufacturers Association) Certified, ABYC (American Boat & Yacht Council) Compliant to applicable standards and meet or exceed U.S. Coast Guard requirements.
