Ebbtide 2300 Mystique Lined Bow Rider:

Delivering the Luxury of Space with Unsurpassed Power & Performance

WHITE BLUFF, TN (July, 2004) -- If you need extra room on the water for family and friends, but desire unsurpassed performance and handling, then Ebbtide has the luxury pleasure boat for you.

The **2300 Mystique Lined Bow Rider** is capable of holding you and 11 of your best friends for a day, or weekend, of play and pleasure. At 23' 2" in length, this boat offers a variety of standard features, including an enclosed head, bi-fold walk through transom, snap in/snap out berber carpet, swim platform with ladder, wrap around bench seating, sink with faucet, insulated cooler with drain, AM/FM stereo/CD player with remote, tilt steering, color matched bimini top and boot, storage area in bow and rear bench, and ski storage beneath. An optional extended swim platform, as pictured in the attached photograph, is also available with this boat.

The **2300 Mystique Lined Bow Rider** comes standard with the 5.0 MPI engine, and has a 70 gallon fuel capacity. Optional engines are also available.

Jump into the driver's seat and experience one of the quietest boats on the water. Every Ebbtide boat is NMMA certified and uses closed-cell urethane foam overlaid with fiberglass mat and Ashland resin on all hull sides, giving you a quieter ride and stronger hull.

As with all **Ebbtide Boats**, quality is the first concern. "It takes time to build and exceptional boat," says Ebbtide President Tommy Trabue, "its an art we've been perfecting since 1965."

As with all Ebbtide Boats, each hull and deck is 100% hand laid with a first layup of fiberglass mat and Ashland AME 5000 resin and then successive layers of fiberglass mat and roving using Ashland low VOC resin for lighter and stronger construction. In addition, Ebbtide makes a conscious effort to use materials that are environmentally friendly. Because of the time and care put into each and every boat, only a limited number of boats are produced each year.
