**EBBTIDE INTRODUCES THEIR NEW
2400 SINGLE CONSOLE FUN CRUISER**

A Spacious Deck Boat with the spirit of a Speed Boat – Updated for 2005!

WHITE BLUFF, TN (August, 2004)- For those who enjoy the lifestyle of a spacious deck boat but yearn for the speed and precision handling of a speedboat, Ebbtide has updated their **2400 Single Console Fun Cruiser** for 2005.

In their never-ending strive for excellence, Ebbtide Boats has topped themselves again with this family-sized sporty fun cruiser. The traditional design seats 14 people, and includes a **brand new** deluxe stereo with CD Player and a Sirius Digital Satellite System, providing you and your friends the perfect setting for on-the-water fun and entertainment. The dyna-plane hull design provides the performance of a speedboat for water skiing, tubing, and wake boarding.

The cockpit comes equipped with a **brand new** adjustable flip-up SAS high back captain's seat with a special shock-absorbing comfort suspension for a smooth ride, as well as a convenience center (including a sink, an insulated cooler storage space, drink holders and a trash container). Stainless steel is all around, from the bow rails, to the ski tow eye, to the props, cleats and cup holders.

The Fun Cruiser accommodates her passengers with a generous compliment of premium features, including an enclosed head and changing room with Port-A-Potty. The soft vinyl wrapped dash includes a speedometer, tachometer, oil pressure and water temperature gauges, a safety tether switch and built-in depthfinders. There are even built-in fishing rod holders!

The bow of the Single Console Fun Cruiser quickly converts into a sun lounge for a lazy afternoon on the water. Skiers will appreciate the abundance of storage area in the bow and stern, including an in-floor ski and knee board space. The easily accessible swim platform (with an optional extension) is equipped with additional ski rope storage. This boat is the answer to your family's dreams!

The classic silhouette is complimented by chrome-plated Ebbtide name plates, a color matched bimini top and boot, and checkered sport graphics both inside and outside the boat. This 4,200 pound (dry weight) deck boat comes with several Volvo and Merc engine options, from Merc's 5.7 L to the MX 6.2 MPI Bravo I, and Volvo's 5.0 GXI MPI to the 5.7 GXI MPI. This 23'8" deck boat has a 68-gallon fuel capacity, and an 8 foot, 6 inch beam.

Ebbtide Powerboats set themselves apart from the competition with their superior award winning design & performance and 100% hand-laid construction. Their exclusive Dyna-Plane™ hull design and Dura-Core™ construction are the foundation of why Ebbtide Boats ride quieter, handle better and last longer. As with all Ebbtide Boats, their 100% hand-laminated hulls have a 10-year limited warranty and a limited lifetime stringer system and transom warranty. Because of the time and care that is put into each and every boat, a limited number of boats are produced each year, and each boat is one of a kind.

Celebrating its 40th year in business, Ebbtide Corporation boasts 24 years of *Powerboat Magazine's* Awards for Product Excellence from 1980 to 2004. The Company was the recipient of yet another Powerboat award for their 2200 Bow Rider with Liner at the 28th Annual Awards for Product Excellence Celebration on May 1, 2004 in Sarasota, FL.

All Ebbtide Boats are NMMA (National Marine Manufacturers Association) Certified, ABYC (American Boat & Yacht Council) Compliant to applicable standards and meet or exceed U.S. Coast Guard requirements.
