**EBBTIDE MAKES EXTREME WAVES!!!**

*New red hot or bright yellow extreme bow rider make heads turn on the water*

**WHITE BLUFF, TN (MARCH, 2005)** – Ebbtide is proud to introduce the first Extreme power boat package with bold new colors and sleek design, now available in their 2005 line. The ‘Extreme Package’ is turning heads on the water with the bright yellow or hot red matching hull, deck, interior and upholstery.

Offered on Ebbtide’s 2100 lined bow rider (2100 BRL), the Extreme Package features stainless steel Captain’s Call Side Hull Exhaust System. Controlled by the captain, it can be transferred between thru-prop exhaust and thru-hull exhaust exiting to port and starboard with the flip of a switch. A low profile tinted windshield drives home the power and good looks of these new boats.

“Performance has always been important to me,” says Tom Trabue, Ebbtide’s president for nearly forty years. “While performance isn’t always about going fast, this new design not only is fast, it looks fast... even when it’s on the trailer. We’re really proud of the results of our design efforts and the way the dealers and consumers are feeling about the new Extreme package.”

The low profile, tinted windshield really enhances the lines of the boat and delivers a real speed boat attitude. A walk-thru transom, a sporty instrument panel with a 5” tach, and Shock-Absorbing-System (SAS) adjustable bucket seats with flip up bolsters are standard. Other standard features include in-floor ski and knee board storage, AM/FM stereo/CD player, insulated cooler with drain, and a swim platform. Best of all, the 2100 BRL Extreme is versatile. It’s perfect for skiing, tubing, wakeboarding, or any other water sport. For those with an eye for speed but the need for versatility, the 2100 BRL Extreme just might be the perfect boat.

This boat also features Extreme graphics and interior, and stainless steel docking lights. The Extreme 2100 BRL is NMMA certified and features a roomy sport interior with adjustable driver and passenger bucket seats, deluxe tilt steering, rear bench seat, and U-shaped bow seat. This compact fun machine efficiently uses its 20’10” length and has room for you and nine friends for fun on the water.

New standard features for 2005 include stainless steel joint caps for the stainless steel gunwale insert, and an upgraded interior with enhanced definition and appointments. Brand new optional features include chrome-plated Ebbtide name plates, brushed aluminum or color-matched wakeboard tower with lights, racks and speakers, and a Sirius Digital Satellite radio system.

This 3,475 pound (dry weight) sport boat comes with several Merc options (from a 5.7L to a 350 MAG Mpi), and Volvo options (from 5.0L Gxi Mpi to 5.7L Gi Mpi), starting at \$39,996. (trailer not included)

As with all Ebbtide Boats, each hull and deck is 100% hand laid with a first layup of fiberglass mat and Ashland AME 5000 resin and then successive layers of fiberglass mat and roving using Ashland low VOC resin for lighter and stronger construction. In addition, Ebbtide makes a conscious effort to use materials that are environmentally friendly. Because of the time and care put into each and every boat, only a limited number of boats are produced each year.
