FEBRUARY 2007

New for 2007, the Ebbtide 2640 Z-Trak Bow Rider, with room for 13 people, incorporates high-performance vented chines that allow the boat to corner more precisely while providing easier maneuverability and control. Perfect for pulling skiers and wake boarders, the Z-track technology allows the boat to plane quicker to enhance overall performance.

Amenities include a convenience center (with a sink, storage space and insulated cooler), drink holders, a table and a trash container. A full wrap-around walk-thru windshield with side vents makes the bow easily accessible.

Additional features include a satellite-ready JBL stereo system with a CD player, four speakers, and I-Pod and MP3 connections, enclosed head and changing room with Port-A-Potty.

The modern and stylish cockpit comes equipped with a custom tilt steering wheel with flex aluminum accents and two adjustable flip-up SAS captain's chairs with head-

rests and special shock-absorbing comfort suspension. The vinyl wrapped porcelain dash includes speedometer, tachometer, oil pressure and water temperature gauges, a safety tether switch and built-in depth finder.

A ski and kneeboard locker compartment amidship in-floor has plenty of space to stow equipment, while the rear platform has a generous storage area that can be used for bumper and life preserver storage or as a cooler with a drain. Additionally, for easy entry and exit, there are four-rung telescoping boarding ladders on the extended swim platform at the stern, as well as at the bow.

This model comes available with the option to upgrade to the SL Luxury package. The SL package includes a soft vinyl wrapped platinum dash with South American rosewood panels, spun aluminum Beede gauges, pearl based upholstery with Astro Grain, custom high back SAS bucket seats, and custom steering wheel with rosewood accents.
