Ebbtide Gains Another “Outstanding Runabout Performance Award”

WHITE BLUFF, TN (May, 2002) - Just recognized by *Powerboat Magazine* for its “**Outstanding Runabout Performance,**” Ebbtide’s 2300 Sport Cuddy again surpasses the competition.

Ebbtide Boats guarantees your friends and family the best time on the water by making boats that deliver consistent performance, superior handling, luxurious comfort, and head-turning style. Ebbtide Boats feature award-winning hull designs that guarantee fast and smooth planing. But don’t just take our word for it. Ebbtide Boats have won more “**Runabout of the Year**” awards than any other boat manufacturer in the country. This most recent award underscores our commitment to outstanding performance, not just luxurious styling.

As with all **Ebbtide Boats**, quality is the first concern. “It takes time to build an exceptional boat,” says Ebbtide President Tommy Trabue, “an art we’ve been perfecting since 1965.”

Jump into the driver’s seat and experience one of the quietest boats on the water. *Powerboat Magazine* reports that the ride on the 2300 Sport Cuddy was “impressively soft” and cabin and cockpit clatter was “minimal.” That’s because every Ebbtide boat is NMMA certified and uses closed-cell urethane foam overlaid with fiberglass mat and low VOC resin on all hull sides. Every Ebbtide boat gives you a quieter ride as well as a stronger hull.

The **2300 Sport Cuddy** exceeds all cuddy expectations and offers invaluable amenities to its occupants. This live on/stay on boat is rated for 8 people and can sleep a small family. It features a large v-berth with cushions, table, courtesy lighting, ample storage, and a cabin that allows full head room around the mid section when sitting. Paying attention to all details, Ebbtide added more convenience when they installed the port-o-potty on the starboard side as opposed to the standard mid potty under the bed cushion in the middle of the boat. The result: more convenience and more privacy for the boat occupants.

In addition to the spacious cabin, the **2300 Sport Cuddy** offers numerous cockpit conveniences such as adjustable bucket seats, rear L-shape seating with transom door, drink holders, center steps for easy access to the forward deck, a depth finder, and dashboard with full complimentary gauges that have lifetime warranty.

Behind the driver's seat is a convenience center with a sink, cooler, storage, and an optional stove. This, coupled with the unique seating, ensures a most pleasant boating experience.

The **2300 Sport Cuddy** stretches 23' 2" and has a 70 gallon fuel tank. With an 8' 6" beam, it is a legally trailerable boat. This Sport Cuddy comes standard with a 5 Liter multiport fuel injected engine for \$37,430.

As with all Ebbtide Boats, each hull and deck is 100% hand laid with a first layup of fiberglass mat and Ashland AME 5000 resin and then successive layers of fiberglass mat and roving using Ashland low VOC resin for lighter and stronger construction. In addition, Ebbtide makes a conscious effort to use materials that are environmentally friendly. Because of the time and care put into each and every boat, only a limited number of boats are produced each year. For more information, please call 615/797-3193, fax 615-797-4889, email info@ebbtide.com, or visit www.ebbtideboats.com.
