**Powerboat Magazine Recognizes Ebbtide's Mystique 2300 Bow Rider For
"Outstanding Runabout Workmanship"**

WHITE BLUFF, TN (June, 2003) - Recognized by *Powerboat Magazine* for "**Outstanding Runabout Workmanship**," Ebbtide's 2300 Bow Rider again surpasses the competition.

Why spend your time on the water with friends and family on any ordinary boat? Let Ebbtide spoil you with a finely tuned performance machine with superior handling, comfort, and head-turning style. The Mystique and Campione series feature award-winning hull designs that plane fast and smooth. But don't just take our word for it. This is Ebbtide's 18th *Powerboat* award, underscoring their commitment to quality manufacturing and performance standards.

Why have Ebbtide boats won 18 product excellence awards? With Ebbtide Corporation, quality is the first concern. "It takes time to build an exceptional boat," says Ebbtide founder and president Tommy Trabue. "It's an art we've been perfecting since 1965."

The **2300 Mystique Bow Rider w/Liner** is capable of holding you and 11 of your best friends for a day, or weekend, of fun on the water. At 23' 2" in length, this boat offers a variety of standard features, including an enclosed head with port-a-potty, step-through transom, berber carpet, swim platform with ladder, wrap around bench seating, sink with faucet, insulated cooler with drain, AM/FM stereo/CD player with remote, tilt steering, color matched bimini top and boot, storage area in bow and rear bench, and ski storage beneath. An optional extended swim platform is also available. Every Ebbtide boat is hand made with the greatest attention to detail and performance, giving its owner a comfortable interior, a quieter ride, and a stronger hull. .

Powerboat Magazine and their expert boat testers made eyes at the **2300 Bow Rider w/Liner** inside and out, saying it is "solidly built no matter where you care to look..." That's because each Ebbtide has a hand laminated deck and hull that's heavier than any other boat in its class. Yet the boat continues to outrun the others. Why? It's the combination of high performance hull design and power platforms. In testing, *Powerboat Magazine* clocked the 2300 BRL at a whopping 62.2 mph. The testers were impressed to find a boat this big with a hull this solid that maneuvers so well, "the boat always did whatever you asked it to." But what really caught their eyes was the attention to detail. From the wave-free gunwale to the precisely fit cushions that cover an impressive amount of storage, every detail has been attended to. And that's why *Powerboat Magazine* awarded the **Ebbtide 2300 Bow Rider w/Liner** its prestigious Product Excellence award for outstanding runabout workmanship. In their words, "the powertrain might have been optional, but the incredible workmanship came standard."

You won't be able to keep your hands off of this **2300 Bow Rider w/Liner** with a standard 350 Mag engine for a MSRP of \$39,900. It has a 70-gallon fuel capacity. Optional engines are also available; see the nearest dealer for details.

Because of the time and care put into each Ebbtide Powerboat, only a limited number of boats are produced each year. For more information, call 615/797-3193, fax 615/797-4889, email info@ebbtideboats.com, or visit www.ebbtideboats.com.
